Dear Viki,

Thank you for treating our group to the great presentation of "The Ultimate Medical Manager". This insightful program was just what we needed. Your collaboration with our group is really appreciated.

Your company's ability to schedule the class at a convenient time and place was crucial. Your brochures and marketing measures were well received by our large membership. The fact that your brochure gave our group a prominent role was very valuable to us. In short, the program exceeded even the highest expectations. We have received interest in our group from previous non-members who attended the seminar. Word is spreading that we are having some great speakers and programs for our membership and that will make our organization stronger.

We thank you for a great seminar, for helping us raise funds for our group, for the ease in making this happen. We are glad to have formed a strong working relationship with VRE Training and look forward to seeing you on a monthly basis now.

Best Regards,

William Thomas Bland  
President
